Download Links Zenfone 4 Rootkit - One Click Root for Asus Zenfone Zenfone 5 Rootkit - One Click Root for Asus Zenfone Zenfone 6 Rootkit - One Click Root for Asus Zenfone Zenfone 2 Rootkit - One Click Root for Asus Zenfone Zenfone 5 Rootkit - One Click Root for Asus Zenfone Zenfone 6 Rootkit - One Click Root for Asus Zenfone Zenfone 2 Rootkit - One Click Root for Asus Zenfone A: It's rather easy. All you need to do is to plug your phone in to your computer, select "ADB" and a list of devices will pop up: Make sure it's the correct one. Then from your file manager you can navigate to the android_extras folder in your SD card, this is where the adb folder is. Then type: adb reboot bootloader and wait. Now you can type fastboot devices and it should say "waiting for device" Then you can type fastboot oem unlock Now type: fastboot reboot and wait for the device to reboot. Then type: fastboot flash boot Then type: fastboot flash userdata and press the power button to reboot into recovery. Now in recovery, install SuperSU. Then reboot into the system. You can find your path to the userdata
